

# NOMINATION COMING LOEB'S WAY

## Long Talk on Politics Between the President and the Port Collector of New York

### PREFERS THE CUSTOMS HOUSE JOB

**But will Make It a Whirlwind Campaign if it is Absolutely Necessary for Him to Take the Republican Nomination—Mr. Loeb Not Interfering in the New York Governorship in Any Way—But Loeb is the Man.**

Beverly, Mass., July 11.—William Loeb, Jr., collector of the port of New York, frankly told President Taft today that he would rather remain at his post in the customs service than run for governor of New York. Mr. Loeb said that the nomination seemed to be coming his way and that it would take more than a fainting fit to the Rocky mountains to stop it.

**Loeb Prefers Customs House Work.** The former secretary to President Roosevelt left Beverly this afternoon for New York. He took the five o'clock train out of Boston. Mr. Loeb left behind the impression that he would not come absolutely necessary for him to take the republican nomination he will do so and will make it a whirlwind campaign. He would much rather go on with his work in the customs house, however.

**How the President Regards Mr. Loeb.** The mention of the New York situation was incidental to talk on general politics between the president and Mr. Loeb. They were together this morning before the president went to the Myopia links for a game of golf with Henry C. Frick who lived near here and they lunched together at John Hays Hammond's cottage in Gloucester. After the luncheon the talk was continued. Mr. Taft was anxious to hear something of the situation as

**AMATEUR AVIATORS' MACHINE BADLY WRECKED**  
in an Attempt to Fly Across Long Island Sound.

New York, July 11.—Clifford B. Harmon, well known as an amateur aviator, made an attempt this evening to fly in an airplane from Garden City, L. I., across Long Island sound to the residence of his father-in-law, Commodore E. C. Benedict, at Greenwich, Conn.

Not only did he fail, but his machine fell a few hundred feet, was wrecked. Harmon was badly shaken up but not seriously injured. The branches of his wing having broken the force of his fall.

For several weeks Harmon had been promising to make the flight. After coming up to the city he had been working on the machine, which was a biplane, but the weight of pontoons, which he attached to his craft to insure floating, proved too much to carry, and he was forced to alight after going less than a mile.

The pontoons were removed and at 6:15 he was away again. But as he disappeared in the distance, just before he descended only three cylinders of his engine were working and he decided to come back. When he returned he did not say whether he would try again.

The students of the French language, has been selected to study at Columbia next winter as a representative of the University of Paris.

**President Not Interfering in New York Situation.**  
Mr. Taft is not interfering in the New York situation in any way. He and Mr. Loeb are the closest of friends and whenever Mr. Loeb's name has been mentioned the president in connection with the New York governorship he always has enthusiastically approved the suggestion. Mr. Loeb has known this for some time. He has known that so far as he could legitimately he would support Mr. Loeb, but his influence to his support in anything he might undertake. Mr. Loeb has counted so confidently on his support that he was rather inclined to resist today the inference in some quarters that it was necessary for him to come to Mr. Taft to ask for his "O.K."

**Nothing but Politics Discussed.**  
The collector discussed New York state politics with the president from various angles. Mr. Loeb made no attempt to conceal the more serious aspects of the situation from the republican point of view. He expressed again the belief, however, that the republicans had no definite plan agreed upon, but the members of the union felt that this was something that might be done. There will be no more meetings until September as the August meeting is already omitted.

**THEODORE ROOSEVELT'S FOUR DAYS' REST ENDED.**  
Again Dips Into Practical Politics—Governor Hughes at Sagamore Hill.

Oyster Bay, N. Y., July 11.—Theodore Roosevelt's four days of rest are over. Tomorrow he will turn from wood chopping, hay making and tennis playing to dip into practical politics once more. In the morning he is to go to his office in New York. There he may meet Governor Hughes and bring him back to Oyster Bay in his automobile. At any rate, the governor is to be here late tomorrow evening and the night and part of the next day at Sagamore Hill.

Mr. Roosevelt's conference with Governor Hughes is expected to be the most important one which the collector has had since his return from the Pacific. The nature of the conference already has been outlined, and it is expected that the governor will be in the confidence of the president, and there is no foundation for reports that various specially named names are to be discussed.

# ALL EYES ON AVIATOR CURTISS

## He Sets An American Record for Fifty Mile Flight in an Aeroplane

**CLIMBED 1600 FEET IN FIVE MINUTES**  
**Series of Thrilling Exhibitions by Curtiss, Brookins and Coffyn at Atlantic City Kept the Crowd on the Board Walks and Beach in a Succession of Cheers**  
**Sham Bombs to be Dropped Today.**

Atlantic City, N. J., July 11.—Glen Curtiss set an American record for fifty mile flight in an aeroplane today by covering a half hundred measured miles in 45 minutes and 59 seconds. Curtiss was in the air one hour and thirty minutes and spent one hour, twenty-one minutes and five seconds on the course, six minutes and six seconds being deducted for the turns at the two ends of the two and one-half mile course.

**Plaudits of the Cheering Crowd.**  
At the end of his fifty mile flight Curtiss swept his machine back over the waterway in the meadow side of the city and made an entire circuit of the beach, giving another thrilling exhibition of the plaudits of the cheering crowd.

**New Mark for Quick Climbing.**  
Mrs. Curtiss was among the first to greet him. Walter Brookins, who was flying his rival's plane, flying the Wright machine, were among those who crowded around him and extended their congratulations over the excellent flight. In the early evening Curtiss swept his machine 1,600 feet in the air in five minutes and fifty-one seconds.

**Time of the Five Mile Laps.**  
After a wait of hours for moderation of the sharp westerly wind, which kept him from the ocean, Curtiss rose in the air at 2:25 p. m. After a short warming up spin, he swung back over the upper mark made by range flags on a board walk building at Massachusetts avenue and started on his long flight. Owing to the wind, which was blowing from the upper air, he did not reach a speed of more than fifty miles an hour, his average for the race being about forty miles.
